(unaudited)

THREE MONTHS ENDED MARCH 31, 2022

1. Nature of Operations

Millennium Silver Corp. (the "Company" or "MSC") is incorporated under the Business Corporations Act of British Columbia. The Company is listed on the TSX-Venture Exchange and its primary business is the acquisition, exploration, and evaluation of mineral properties in Canada and Nevada, USA. The address of the Company's registered office and its principal place of business is 20 Sixth Street, New Westminster, British Columbia, Canada, V3L 2Y8.

On March 11, 2020, the World Health Organization declared COVID-19 a global pandemic. This contagious disease outbreak and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, leading to an economic downturn. The impact on the Company has not been significant, but management continues to monitor the situation.

These consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at March 31, 2022, the Company has an accumulated deficit of \$16,815,162. During the period ended March 31, 2022, the Company has generated no revenues and incurred a net loss of \$48,745. The continued operations of the Company are dependent on its ability to generate future cash flows or obtain additional financing. Management is of the opinion that it has sufficient working capital to meet the Company's liabilities and commitments as they become due, although there is a risk that additional financing may be required but will not be available on a timely basis or on terms acceptable to the Company. These factors indicate the existence of a material uncertainty that may cast doubt upon the Company's ability to continue as a going concern. These condensed consolidated financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern.

2. Statement of Compliance

These condensed consolidated financial statements of the Company have been prepared in accordance with International Accounting Standards 34, "*Interim Financial Reporting*", and based on the principles of International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and the interpretations of the International Financial Reporting Interpretations Committee. These condensed consolidated financial statements should be read in conjunction with the Company's annual audited consolidated financial statements for the year ended December 31, 2021, which include the Company's significant accounting policies, and have been prepared in accordance with the same methods of application.

These condensed consolidated financial statements have been prepared on a historical cost basis except for certain financial instruments, which are measured at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

THREE MONTHS ENDED MARCH 31, 2022

3. Significant Accounting Policies

(a) Principles of consolidation

These condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, International Millennium Mining Inc. ("IMMI"), a Nevada corporation. Control is achieved when the Company has the power to govern the financial and operating policies of an investee, so as to obtain benefits from its activities. Subsidiaries are fully consolidated from the date on which control is transferred to the group until the date on which control ceases. All inter-company transactions and accounts have been eliminated on consolidation.

(b) Significant accounting estimates and judgments

The preparation of these condensed consolidated financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. These consolidated financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the consolidated financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future and other sources of judgments and estimates that management has made at the consolidated statement of financial position date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

Critical judgments

- The analysis of the going concern assumption, which requires management to take into account all available information about the future, which is at least, but not limited to, 12 months from the end of the reporting period; and
- The determination of whether it is likely that future economic benefits from exploration and evaluation expenditures are likely either from future exploitation or sale or where activities have not reached a stage which permits a reasonable assessment of the existence of reserves.

Estimates

- Recoverability of exploration and evaluation assets;
- Fair value of convertible debentures;
- Fair value of share-based payments; and
- Unrecognized deferred income tax assets.

4. Accounting Standards Issued But Not Yet Effective

Certain pronouncements have been issued by the IASB or the IFRS Interpretations Committee that are mandatory for accounting years beginning on or after January 1, 2021 or later years. Management does not believe the adoption of these future standards will have a material impact on the Company's consolidated financial statements.

THREE MONTHS ENDED MARCH 31, 2022

5. Exploration and Evaluation Assets

(a) Nevada, USA Properties

(i) Silver Peak (Nivloc) Property, Esmeralda County

In September 2007, the Company established its interest in the Silver Peak (Nivloc) Property, located in Esmeralda County, Nevada, by acquiring 9 unpatented claims for US\$75,000 and 110,000 shares.

During fiscal 2011, an additional 95 contiguous claims (the "Additional Claims") were staked and recorded.

In February 2011, and amended May 22, 2012, the Company executed an Option and Joint Venture Agreement, with Silver Reserve Corp. ("SRC"), pursuant to which the Company acquired the right to purchase up to 85% interest in 18 unpatented lode claims (the "NL Extension Claims") contiguous with and surrounding the Company's existing Nivloc Mine property, Esmeralda County.

The Company acquired the interest in the NL Extension Claims by making cash payments of US\$350,000 and by issuing 1,925,000 shares over a period of five years as follows:

	Cash (US\$)	Common shares
Upon execution of Letter of Intent (paid)	5,000	–
Upon execution of Agreement (paid 2011)	5,000	–
Upon receipt of TSX Venture approval (paid and issued)	15,000	275,000
On or before September 15, 2011 (paid and issued)	35,000	300,000
On or before September 15, 2012 (paid and issued)	50,000	300,000
On or before September 15, 2013 (paid and issued)	70,000	350,000
On or before September 15, 2014 (paid and issued)	70,000	350,000
On or before September 15, 2015 (paid and issued)	100,000	350,000
	350,000	1,925,000

On October 14, 2015, the Company made the final payment of US\$100,000 to SRC, thereby acquiring an 85% undivided interest in the Silver Peak (Nivloc) Property. The Company registered this 85% undivided interest in the Silver Peak (Nivloc) Property with the US Bureau of Land Management (the "US BLM") and Esmeralda County, Nevada.

Following the Company's completion of a positive feasibility study, the Silver Peak (Nivloc) Property was developed on a joint venture basis where SRC had the right to contribute to the development of the 122 claim Silver Peak (Nivloc) Property and retained a 15% interest therein.

On January 7, 2016, the Company executed a Sale and Purchase Agreement, including an Option to Purchase Royalty Interest (the "Agreement"), to acquire SRC's remaining interests in the Silver Peak (Nivloc) Property (the "Transaction"). These interests include the following:

- (i) All rights, titles and interests owned by SRC in and to the remaining undivided 15% interest in and to the NL Extension Claims, and any and all licenses and permits pertaining thereto; and
- (ii) The sole and exclusive right and option to acquire a 15% interest in the 104 claims held by the Company (the "IMMC Claims").

5. Exploration and Evaluation Assets (continued)

(a) Nevada, USA Properties (continued)

(i) Silver Peak (Nivloc) Property, Esmeralda County (continued)

Pursuant to the Agreement, the Company paid SRC US\$120,000 for the Silver Peak (Nivloc) Property interests detailed above (the "Silver Peak (Nivloc) Property Interests"), and SRC retained a royalty interest of 2% of Net Smelter Returns ("NSR") from the NL Claims and the IMMC Claims (the "Royalty Interest").

On December 22, 2016, the Company paid SRC US\$120,000 to acquire the 2% Royalty Interest, funded by Capital Mineral Resource Investments Limited ("CMRI"). As a condition of the funding the Company received from CMRI to purchase the Royalty Interest, 1% NSR of the Silver Peak (Nivloc) Property (the "1% Royalty Interest") was transferred to CMRI. CMRI granted to the Company an exclusive option to purchase 100% of CMRI's right, title and interest in the 1% Royalty Interest for \$2,000,000 for a period of ten years from December 24, 2016 (or any portion or portions thereof on a pro rata purchase price) at any time and from time to time on or before December 24, 2026.

In April 2017, the Company staked 42 lode claims, contiguous to the Silver Peak (Nivloc) Property, and acquired 8 unpatented lode claims contiguous thereto, all located in Esmeralda County, Nevada. The total cost was US\$62,700 and the issuance of 100,000 common shares of the Company.

In October 2017 (and amended on March 16, 2018), the Company executed Option Agreements with Silver Saddle Resources LLC ("Silver Saddle") and Consent to Assignment Agreements between the Company, Silver Saddle and two underlying property owners (the "Silver Saddle Agreements"), to acquire 25 unpatented lode mineral claims located contiguous with the Company's Silver Peak (Nivloc) Property (the "Silver Saddle Claims") in Esmeralda County, Nevada.

Pursuant to the Silver Saddle Agreements, the Company acquired a 100% interest in the Silver Saddle Claims, subject to various net smelter return ("NSR") royalties by making cash payments of US\$115,000 and by issuing 1,000,000 shares as follows:

	Cash (US\$)	Common shares
Upon execution of Letter of Intent (paid)	10,000	–
Upon receipt of TSX Venture approval (issued)	–	1,000,000
On or before December 31, 2017 (paid)	20,000	–
On or before March 29, 2018 (paid)	5,000	–
On or before June 30, 2018 (paid)	10,000	–
On or before March 29, 2019 (paid)	10,000	–
On or before April 30, 2019 (paid)	10,000	–
On or before March 29, 2020 (paid)	25,000	–
On or before May 15, 2020 (paid)	25,000	–
	115,000	1,000,000

The NSR royalties vary from 1.5% on eight of the claims, of which 1.25% NSR can be purchased for US\$190,000; 2.5% on seven of the claims, of which 1.25% NSR can be purchased for US\$110,000; and, 1.5% on ten of the claims, of which 0.5% NSR can be purchased for US\$500,000.

In November 2017, the Company staked an additional 14 claims contiguous to the Company's Silver Peak (Nivloc) Property claims for US\$11,484.

The Company's total land holdings in the Silver Peak (Nivloc) Property area include 211 claims covering in excess of 4,000 acres (1,600 hectares).

(ii) Simon Property

Pursuant to an Option Agreement executed in December 2004, and a Settlement Agreement, with the Estate of Nadean Bedford, announced in November 2010, the Company acquired, and holds in good standing, a 100% interest in the Simon Property, consisting of 20 patented and 3 unpatented contiguous claims. The Company also acquired by staking, and holds, a further 34 contiguous unpatented mining claims, which are in good standing. The monthly payments are US\$2,000. There are no underlying royalties.

Pursuant to the terms of a non-binding Letter of Intent dated May 7, 2021 (the "Altair LOI"), between the Company and Altair Resources Inc. ("Altair"), a British Columbia company that is publicly traded on the TSX Venture Exchange (the "TSX-V"), and an addendum to the Altair LOI dated July 6, 2021, subject to TSX-V approval, the Company has granted Altair an option to earn 65% interest in the Simon Property in exchange for reimbursement of the monthly option payments of US\$2,000 to the original property owner and the following:

	Exploration Expenditures \$	Common shares

(b) Notre Dame Property

On February 23, 2021, the Company entered into an option agreement whereby it can earn the sole and exclusive right and option to purchase 100% right, title, and interest in 96 mineral claims situated in the province of Newfoundland and Labrador, for \$6,240 (paid) and the issuance of 300,000 common shares of the Company (issued – refer to Note 8) within 10 business days of TSX-V approval. The optionor is entitled to receive a 0.25% NSR Royalty, which can be purchased by the Company for \$50,000.

(c) Pynns Brook Property

On July 22, 2021, and as amended on July 27, 2021, the Company entered into an option agreement whereby it can earn the right and option to purchase 100% interest in 135 mineral claims situated in five claim groups in Deer Lake, Newfoundland and Labrador for \$6,825 (paid) and the issuance of 1,000,000 common shares of the Company, of which 500,000 common shares are due within 10 business days of TSX-V approval (issued) and 500,000 common shares are issuable by January 22, 2022 (issued - refer to Note 8). The claims are subject to a 1.5% NSR Royalty, of which 0.5% of the NSR Royalty can be purchased by the Company for \$500,000.

6. Loan Payable

- (a) As at March 31, 2022, the Company owed \$57,500 (December 31, 2021 - \$25,000) to a director of the Company, which is unsecured, non-interest bearing, and due on demand.

7. Convertible Debentures

- (a) On June 12, 2020, the Company issued a convertible debenture to a non-related party for proceeds of \$20,000. Under the terms of the debenture, the amount owing is unsecured, bears interest at 12% per annum, and is due on June 12, 2022. The interest is payable semi-annually on the last day of December and June each year. The holder may choose whether to accept a cash payment for the interest payable or whether it should be accrued to the holder's account, in which the accrued interest would become convertible at a conversion price equal to the market price at the time of such conversion.

The debenture is convertible at \$0.05 per conversion unit for the first year and at \$0.10 per conversion unit for the balance of the term. Each conversion unit is to consist of one common share and one share purchase warrant, with each share purchase warrant being exercisable at \$0.05 per share for the first year of the term of the debenture or \$0.10 per share for the balance of the term of the debenture.

The convertible debenture was recorded using the residual method, where the convertible debenture was bifurcated into a debt component and equity component comprised of the convertible feature embedded within the liability. The fair value of the liability component, at the time of issuance of the debenture, was determined to be \$17,222 using a net present value calculation assuming a discount rate of 20% per annum. As a result, the value of the equity component of \$2,778 was recorded in equity reserves and an equivalent discount on the convertible debenture which will be accreted to the face value of \$20,000 over the term of the debenture.

During the three months ended March 31, 2022, the Company recognized accretion expense of \$339 (March 31, 2021 – \$1,253), which increased the carrying value to \$19,735 (December 31, 2021 - \$19,396).

11. Financial Instruments and Risk Management

The Company's financial instruments are exposed to certain financial risks, including credit risk, interest rate risk, liquidity risk, and currency risk.

(a) Fair values

The fair values of other financial instruments, which include cash, accounts payable and accrued liabilities, convertible debentures, loans payable, and amounts due to related parties, approximate their carrying values due to the relatively short-term maturity of these instruments.

(b) Credit risk

Financial instruments that potentially subject the Company to a concentration of credit risk consist primarily of cash. The Company limits its exposure to credit loss by placing its cash with high credit quality financial institutions. The carrying amount of financial assets represents the maximum credit exposure.

(c) Interest rate risk

The Company is not exposed to interest rate risk because its loans payable bear interest at a fixed interest rate. Fluctuations in market rates do not have a significant impact on the Company's operations.

11. Financial Instruments and Risk Management (continued)

(d) Liquidity risk

Liquidity risk is the risk that the Company is unable to meet its financial obligations as they come due. As at March 31, 2022, the Company has working capital deficit of \$197,859 (December 31, 2021 – \$116,334). The Company manages this risk by evaluating current and expected liquidity requirements and seeking financing arrangements as necessary.

(e) Currency risk

The functional currency of the Company is the Canadian dollar and the functional currency of the Company's wholly-owned subsidiary is the United States ("US") dollar. Currency risk is the risk to the Company's earnings that arises from fluctuations of foreign exchange rates and the degree of volatility of these rates. The Company operates in Canada and the US and a portion of the Company's expenditures are incurred in US dollars. A significant change in currency exchange rates between the Canadian and US currencies could have an effect on the Company's results of operations, financial position or cash flows.

The Company does not use derivative instruments to reduce its exposure to foreign currency risk. As at March 31, 2022, the Company has cash on deposit totaling US\$2,637 (December 31, 2021 - US\$6,157). Cash in United States dollars has been translated to Canadian dollars at a rate of Cdn\$1.2496 (December 31, 2021 – Cdn\$1.2575) per US dollar. The Company has limited US dollar financial assets and liabilities and any fluctuations in the US dollar would have an insignificant impact on earnings.

(f) Price Risk

The Company is exposed to price risk with respect to commodity prices. The Company's ability to raise capital to fund exploration and development activities is subject to risks associated with fluctuations in the market price of commodities.

12. Capital Management

The Company manages its capital to maintain its ability to continue as a going concern and to provide returns to shareholders and benefits to other stakeholders. The capital structure of the Company consists of cash and equity comprised of issued share capital and share-based payment reserve.

The Company manages its capital structure and makes adjustments to it in light of economic conditions. The Company, upon approval from its Board of Directors, will balance its overall capital structure through new share issues or by undertaking other activities as deemed appropriate under the specific circumstances.

The properties in which the Company currently has an interest are in the exploration stage. As such, the Company is dependent upon external financings to fund activities. In order to carry out planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties, if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company is not subject to externally imposed capital requirements and the Company's overall strategy with respect to capital risk management remains unchanged from the year ended December 31, 2021.
