Exploration Programs

The Company has acquired and is exploring mineral properties in British Columbia and Ontario, Canada and Nevada, USA. It has also announced, at December 24, 2013, a transaction to merge with Elephant Copper Ltd., whose primary asset is the Mkushi copper mine in Zambia.

Nivloc Mine, Nevada Property

Subject to securing further financings, the Company will continue its exploration programs on the Nivloc property, as set out in the Company's NI 43-101 Technical Report dated July 31, 2012, which can be found on at www.sedar.com or the Company's website www.immc.ca. The report concludes that the area tested by the 2011 drilling program on the Nivloc Property contains an Inferred Mineral Resource, at 40 g/t Ag cut-off, of 1,640,000 tonnes at a grade of 106.47 g/t Ag and 0.78 g/t Au.

Management is focused on polymetallic projects and is working towards building a strong, stable and well financed mineral exploration and small mines mining company. Emerging mineral targets include silver, gold, copper, molybdenum, zinc, lead and platinum group metals.

Elephant Copper Transaction

The Elephant Copper (“Elephant”) transaction announced December 24, 2013, whereby the Company agreed to complete a business combination transaction, is proceeding to the filing stage. The Shareholders Exchange Agreement is distributed for signature to the Elephant shareholders; a NI 43-101 report has been delivered; and the Company is awaiting receipt of the audited 2013 and 2014 consolidated Elephant financial statements. The primary asset of Elephant is the Mkushi copper mine located in Zambia.
